

Dual-purpose cone shaped fog tube for both oil and water based fogging (Patented).

Characteristics

EVO 35 is a universal Thermal Fog Generator designed for different fields of application, indoors or outdoors. This unit can be used with all common pesticides and disinfectants.

A convincing cost-effective Thermal Fog Generator for multi-purpose applications.

- Disinfection, Public Health, Vector & Pest Control
- Bird Control, Plant Protection, Stored Products Control

The performance of the combustion chamber (Theoretical value based on the energy of consumed fuel) of 25,4 HP enables output quantities up to 42 l/h (oil). Even water-based solutions can be applied at its best.

Advantages

- Fuel Tank made from stainless steel
- Air Pump made from stainless steel
- Fog Tube made from stainless steel
- Solution Tank made from stainless steel
- New Carburetor Layout made from aluminium for easy maintenance

Technical Specifications

Weight in kg, empty	7.8
Dimensions L x W x H in cm	133.5 x 28.5 x 34
Solution Tank capacity in l	5.7
Fuel Tank capacity in l (stainless steel)	1.2
Fuel consumption in l/h	2.0
Performance Combustion Chamber in kw/hp ¹	18.7 / 25.4
Average flow rate, in l/h (oil)	20
Maximum flow rate, in l/h (oil)	42
Average flow rate, with water in l/h	10
Efficient horizontal reach	
Outdoor	
(water-based with X-10® fogging solution)	>100
(oil-based solutions)	>100
Power Supply flashlight batteries	4 x 1.5 V LR20
Pressure in Solution Tank, approx. in bar	0.3

Different executions for special applications available.

Special Executions

- EVO 35 E with emergency cut-off device
- EVO W 35 L with acid resistant solution system
