

Experience the extraordinary toughness

Flexi-pro Aerosol Delivery System (FADS)

for PROFESSIONAL use

THE 'PROFESSIONAL' AEROSOL APPLICATOR :

Besides being able to adapt to all Aerosol cans, FADS comes with a unique "wand-like" trigger component which allows for greater reach and versatility. In addition, the trigger comes complete with a 15cm-long spiral flexible wand that covers all possible angles of application. If this is not enough, you have further option of 3 different nozzle size fine, medium or coarse spray. Ergonomic design also provides operator comfort during application.

A 25cm/10" pouch comes as a standard accessory; this ensures brand of Aerosol remains discreet whilst professionalism shines through.

Agrofog allows you to customize and tailor each unit to one of 3 configurations to your specific needs: Basic, Standard and PRO. Each with its own unique feature and price line.

At the very end of the wand is a high-grade stainless steel tip whose length can be customized from 12cm to 50cm allowing for extended reach.
