ROGUARD®
Rodent Control Device Range

SOREX INTERNATIONAL

SOREX PROFESSIONAL
**Roguard® XTRA**

The Roguard® XTRA provides XTRA features and benefits for use by the professional pest controller. Its tough construction makes it durable and suitable for use indoors and outdoors.

**Key Features:**
- Strong and robust
- Tamper resistant locks
- Stackable for easy handling
- Vertical and horizontal bait hangers
- Takes a rat trap
- Several quick and easy anchorage options

**Baiting Options:**
The Roguard® XTRA has twin feeding chambers that will take loose bait, pellets, solid blocks or even liquid baits. Furthermore, the XTRA has been designed to accommodate a rat trap. The XTRA contains a pair of steel bait block holders that can be fixed horizontally, or, by detaching the plastic hangers, can be fitted vertically.

**Stackability:**
The XTRA has been designed to be stackable. This stackability allows for easy storage and transportation. The key advantage is the ability to carry more bait boxes whilst on site. Six boxes can be easily carried under one arm.

**Safety and Ease of Use:**
The advanced lock design ensures enhanced tamper-resistance, protecting non-target animals and people from bait exposure. Optional lock caps can be used to protect the locking device, increasing the lifespan of the bait station.

**Efficacy:**
The lid is shaped to encourage rain water to run off and the base has seven drainage holes. These designs ensure that the bait is kept as dry as possible.

---

**Packaged in cartons of 12, each carton contains:**

- 12 x Roguard® XTRA
- 6 x Triple Keys (opens XTRA, Forte and the previous Classic Rat Box)
- 6 x Dual Keys (opens XTRA and Forte)
- 24 x Bait Block Holders
